

Making do won't do,
personally or professionally.

Marketing Assistants

Putting the right person in the right job at any level is the most important business decision you will ever make.

What job roles do we recruit for?

Tay provides temporary, permanent and contract staff for the following job roles and types of assignments to London based organisations:

- Marketing officers & assistants
- Event planners
- PR support staff
- Corporate comms support
- Short term temporary cover
- Maternity leave cover
- Fixed term contracts
- Permanent jobs

We are competitively priced and offer access to a unique source of high calibre applicants who often register exclusively with Tay based on reputation and recommendation.

Why use an agency to find your marketing support?

A popular misconception is that marketing is glamorous, exciting and fun and any vacancy will attract quantity if not quality response. A good agency will limit applications to manageable proportions by identifying individuals with relevant credentials and the right motivations and potential.

Why use Tay?

Since its foundation in January 1999, Tay has provided serious competition to specialist marketing agencies by knowing the business of recruitment rather than the business of marketing. We are not marketing experts, we are people experts and we identify talented individuals with the experience and potential to excel in a range of demanding and often misrepresented functions.
